TurboSquid - PFlow Toolbox Office: Volume 1

PFlow Toolbox Office: Volume 1 - Beginner / Intermediate Guide to Particle Flow Tools: Box 1 & Box 3 Pro

This highly anticipated training kit from freelance particle and destruction effects guru Anselm v. Seherr-Thoss focuses on many of the advanced subjects for getting the most of the popular Particle Flow plug-in technologies: Box 1 (now included as part of 3ds Max 2010) and Box 3 Pro. This training course will give new users and intermediate professionals alike the ability to assemble complex Particle Flow systems using these advanced plug-in technologies.

Create effects ranging from scripted fracturing of objects to using sound files to affect your particles' behavior. Tutorials that explain, ocean wakes, nanomites and precise alignment of particles to objects are included in this training course. Anselm takes you step-by-step through each effect and provides you with the start and end scene files to explore and dissect on your own as well. And as a little something extra, the training comes with over 20 bonus scene files that you can dive into on your own to see how Anselm creates some of the killer effects he's responsible for daily.

With high resolution and crystal clear sound, and over 7 hours of video this DVD is the ultimate training solution for anyone looking to learn more about the flexibility that Particle Flow offers! The tutorials cover Particle Flow topics thoroughly and explain methods clearly so that everyone should be able to follow regardless of their experience level.

Just look at the course outline:

Box 1 videos:

1. Feather Rig
2. Scripted Fracture
3. Laola Wave
4. Brittle Wall
5. Floating Money

Box 3 Pro videos:

1. Introduction
2. Driving Particles with Grayscale values
3. Gradient by Distance
4. Speed by Gradient
5. Color by Camera Angle
6. Ocean Wake Particles
7. Revolve along Surface
8. Pipe Sub-Operator
9. Random Sub-Operator
10. Align to Object
11. Positional Object Locks
12. Force Influencer
13. Influence by Distance
14. Animated Collisions
15. Fire Embers
16. Shape Controls
17. Nanomites Part 1
18. Nanomites Part 2
19. Control by Proxy
20. Pimp my Toolbox

TurboSquid - PFlow Toolbox Office: Volume 2

Just look at the course outline:

Box 2 Pro videos:

1. Introduction
2. Explaining the Glue Operator
3. Me & My Katamari
4. Squash
5. Donuts
6. Bomb
7. Particle Cloth
8. Capture Net
9. Bamboo Ragdoll
10. Foliage
11. Ripping & Tearing
12. Glass Shattering

Box 2 Pro & Box 3 Pro videos:

1. Box 2 & 3: Bomb
2. Box 2 & 3: Avalanche
3. Pimp my Toolbox

RayFire videos:

1. Grayscale Fracture
2. Activate by Force
3. Custom Properties
4. Glue

Category: Video tutorial + project files
